

NOTICE TO MARINERS

№ 3 – 2025

PORT OF LIVERPOOL

LOCK OPERATIONS AT ALFRED LOCK

NOTICE IS HEREBY GIVEN that, following the installation of temporary impounding pumps (situated on the outer south bullnose of Alfred Lock), the Birkenhead Docks will be reopened for vessel movements from the 04.10 high water on 7 January 2025.

While the efficacy of the temporary pumps is evaluated, lock operations at Alfred Lock will be limited to one outward and one inward movement on each flood tide, and such movements will be scheduled as close to high water as practicable. Outward movements on ebb tides may be permitted subject to the timing of the required movement aligning with the Dockmaster's requirement to return Alfred Lock to river level between tides.

Notice to Mariners №2/2025 has been withdrawn.
