

Mariners are advised that ROV (Remotely Operated Vehicle) Operations, including surface manoeuvrability and dived operations, are planned at Fairlie Quay from 4th - 12th February 2025. The ROV is tethered and all activities will take place within a maximum distance of 100m from the Quay with a safety boat in attendance throughout. A listening watch will be maintained on VHF Ch12 during operational periods.

Vessels navigating within this area should proceed with caution and maintain a good lookout as the ROV may surface without warning.
